Global Finals 2021 Special Awards

**Team Challenge Special Awards**

<b>Award</b>	<b>Team Number</b>	<b>Challenge Type</b>	<b>Competition Level</b>	<b>Team Name</b>	<b>Organization/Location</b>
Renaissance	147-03863	Technical	EL-Orange	The Flaming Eiffel	Medina Elementary School

This team has “WOWED” the Appraisers by creating a truly immersive experience within their Video Game. With creative handmade electronic 3-D backdrops, the Appraisers were transported to an Egyptian pyramid. Camera angles and nearly cinema-quality green screen techniques created an experience that integrated the real world and the digital world. Within their quest, the team built and coded a wooden walking robot through many attempts. Each of their Quest Items was also a technical design achievement. When it came time to defeat their final boss, their Quest Item rewards were integrated into a fascinating trap that the Appraisers wished they could see in person. This team's well-integrated and creative solution really took their Video Game to the NEXT LEVEL!

Renaissance	185-03751	Technical	EL-Purple	Penglai Supermen	Shanghai No.2 Penglai Rd Primary School
-------------	-----------	-----------	-----------	------------------	---

The Penglai Supermen created strikingly unique scenes with detailed temples, mountains, and landscapes from cardboard and craft wood merged with digital effects, well placed lighting, and live action. Their Adventurer was portrayed with a mechanical puppet that appeared to walk as it navigated through the miniature scenes and interacted with mechanical representations of demons, a boat, and a sea creature.

Renaissance	153-32536	Technical	EL-Purple	Team Dragon	Dr. Annie B. Jamieson
-------------	-----------	-----------	-----------	-------------	-----------------------

Team Dragon's entire Video Game Presentation was portrayed with intricate stop motion animation accented with hand-made backdrops, characters, game life bars, falling snow, and title screens all created with simple craft materials like cotton balls and pipe cleaners. It was a truly impressive performance and a joy to watch.

Renaissance	185-77594	Technical	ML-Purple	Free Soul	Shanghai Sanzao School
-------------	-----------	-----------	-----------	-----------	------------------------

The Appraisers were pulled into the team's surreal world through their intricate level of detail that included a rhino that rolled out to show it giving birth, an ornate golden castle that popped out of the screen, and a wonderfully constructed boat built from the Quest Items! The team filled in their world with a variety of colorful and patterned costumes, including a set of beautiful frog pajamas. This team's solution was truly a delight!

DaVinci	185-74393	Technical	ML-Purple	Star of Shangwen	Shanghai Shangwen Middle School
---------	-----------	-----------	-----------	------------------	---------------------------------

This team amazed the Appraisers with their unique presentation of a character in a Video Game. The first-person perspective made it seem like the Appraisers were actually in the game, traversing a dangerous dungeon. The team created their Video Game environment in miniature and filmed using a camera mounted on a remote-controlled car. Their cast of enemy and friendly characters were each intricately costumed to portray skeleton warriors, an evil wizard, and a witch who faced off against the crusading demon hunter. The utter uniqueness of the filming perspective, combined with the creative characters, provided a solution this Appraisal Team will not soon forget.

Global Finals 2021 Special Awards

DaVinci	750-30497	Technical	SL	Nefarious SEAhorses	John Jay Science & Engineering Academy
<p>The Nefarious SEAhorses showed us a Video Game about a quest, not for loot or glory, but for love - or so it seems! This steampunk-inspired dating simulation immersed the audience in the role of the player as we were introduced to 4 incredible engineers working on original creations. The player-audience visited with each engineer as she talked about her work and interests. With each discussion, the intricate costumes were highlighted, and well-crafted sets grounded the voice-overs to give the characters individual personalities in their respective work spaces. The cinematic first-person view throughout this Video Presentation made this feel like a real adventure!</p>					

Renaissance	147-07251	Technical	SL	N/A	Independent
<p>In their solution, this team played a new game that merged computer science and hacking with traditional epic boss battles. The team showed its skills in engineering and design by implementing a shield that unfolded like origami, which harkened to how NASA engineers use this paper art to design future spacecraft. This shield protected the player from the anti-viruses, while the sword was an elegant engineering solution that opened and spun to provide greater "damage" during the boss battle. The solution also featured a projector, a piston to clog a fan, a coded guitar, and a Rube-Goldberg device that powered a fan. The varied engineering solutions showed a comfort level with technical material that was exciting to see implemented in such a cohesive Video Presentation.</p>					

Renaissance	102-12762	Scientific	EL	The COVID Cucumbers	Blossomwood Elementary
<p>This team brought the Appraisers along on a historic trip to the past. They first took us back to the 1960s with big hair and groovy styles. They then transitioned to the 1990s era of denim and slang. Everything the characters wore and said all spoke to a great amount of research into the chosen time periods. With a keen eye for details, the team even showed time passing through the characters' makeup and grey hair in the later era. Their video filter choices also helped to date the Documentary Film: black and white in the 60s, grainy in the 90s, and even a washed out "home video" with vhs tracking lines. From these historic news clips, the team truly brought their Documentary Film about missing pasta to life.</p>					

Renaissance	750-62955	Scientific	EL	Balance Breakers	Tuloso Midway Intermediate
<p>This team captivated the Appraisers with the attention to detail they applied to the Documentary Film about an investigation of a mystery that takes place, appropriately, at a Renaissance Festival. Everything, from the video clips shown while the narrator tells her story, to the pacing of the questions and answers, to the home video footage showing what really happened, combined to create an exceptional final product. The authentic feel of this team's Documentary Film attests to the team's research into the genre, or at least tells the viewer what sort of shows the team has been binge-watching over the last year! Like any good investigation, they get to the truth in the end - that friends are all we really want and need!</p>					

Renaissance	750-07535	Scientific	ML	Creative Crayons	Texas Independent
<p>The truly stunning head-to-toe paper mache costumes and makeup of the steampunk time travelers and the cyberpunk scientific police force wowed the Appraisers with the quality of craftsmanship, thought, and design for each character. The attention to detail of the costumes blew the Appraisers away, from the use of the time-travel-related calculations in the paper mache dress of Doctor Locust, to the truly breathtaking cyber arms and cyborg face and body makeup of the scientific police force. The attention to detail, effort, and design of the costumes were truly "ahead of their time" and wowed the Appraisers!</p>					

Global Finals 2021 Special Awards

Renaissance	750-41941	Scientific	SL	Leander ISD	Vandergriff HS 3
<p>The Appraisers needed to fasten our seatbelt as this explosive performance took off! From chariot races and an evil queen, to sea monsters and a volcano, this team's solution truly wowed the Appraisers. These chariot-racing teammates designed an entire Roman city using 3D-modelling software that was based on physical props they built first. We saw this world through both overhead shots of the city and as backdrops during character interviews. This team-created environment took us back in time and perfectly capitalized on the digital format of this year's Challenge format to immerse us in this historical world. Keep those insurance rates low, and remember to always wear your seatbelt!</p>					

Renaissance	185-03449	Scientific	SL	Beijing 57 High School	Flag
<p>This performance was engaging and entertaining right from the get-go and made us feel like we were watching a space documentary in the future. The team-built spaceship console contained numerous interactive components that gave the impression that team was really flying through space. A number of fascinating optical illusions further confused and delighted the Appraisers' senses. There was a spinning device that alternately said "yes" and "no" as the perspective shifted, an Ames room that caused a figurine character to grow as she crossed the screen, and an Escher-inspired device that showed water appearing to travel upward. The team effectively combined real locations from their school with virtual backgrounds to show the various places on their spacecraft, including one scene where long-distance communication was portrayed by using a mirror, which allowed two characters to be shown in different locations while being filmed at once.</p>					

Renaissance	163-88003	Fine Arts	EL	Colorful Birds	Pan American School of Bahia
<p>While listening to toe-tapping original music, we followed Alice down the rabbit hole where we met the White Rabbit, the Caterpillar, and the Cheshire Cat. We had tea with the March Hare and were intimidated by the Queen of Hearts. The combination of great acting, powerful voices, and special effects made the Appraisers feel that we were truly a part of this wonderful journey. The team composed 6 different songs, plus percussion transitions, each telling a different facet of the story. The music sounded like something right out of musical theatre!</p>					

Renaissance	185-10490	Fine Arts	EL	Sparkle Voice	ES of Renmin University of China
<p>The thought, design, and execution of each element in this team's Video Presentation was jaw dropping. The Pythagorean devices made use of gravity and electromagnetism to move a ball down a series of ramps to trigger the opening of a 3D pop-up book that set the stage for the next scene. The musical instruments were all either fully made by the team or created using everyday items in unusual ways. Instruments included a water cup, finger organ, kettle, and leather stools. The team created elaborate costumes from unusual materials like forks, plastic bags, badminton feathers, strips of mop, and paper crafting, and fashioned the costumes in such a way that they looked nothing like the original materials. Ariel's costume was made with multiple layers, from a dress hidden inside the tail to a crown within a crown to other pieces that served as both fish scales and jewelry. Their Music Video Techniques were amazing, especially when Ariel appeared to swim through water. All of this combined to make an unforgettable Music Video.</p>					

Global Finals 2021 Special Awards

Renaissance	185-91440	Fine Arts	ML	Monster Busters	Beijing 101 MS Shuangyushu Campus
<p>This team depicted an ancient Chinese legend in a highly professional and visually stunning combination of live-action footage, digital special effects, beautifully constructed costumes, hand painted sand art illuminated from below, stop-motion animation, and LED-illuminated costumes that all blew the Appraisers away. The editing, sound, visuals, and storyline flowed seamlessly throughout the video, weaving together 5 different musical sections that built to an epic climax embodying the look and feel of a production-quality music video from beginning to end. The use of stunning visuals transforming through multiple media formats from scene to scene was beautifully combined with Music and Lyrics resulting in a spectacular melding of fantasy and reality throughout the performance.</p>					

Renaissance	750-01524	Fine Arts	SL	The Timekeepers	Academy of Science and Technology
<p>Inspired by Goodnight Moon, a young bunny's comfortable bedroom and familiar bedtime routines unravel into chaos as a schizophrenic episode overtakes the bunny's reality. This team's meticulously designed set and the cleverly conceived transformation it makes over the course of their Music Video demonstrates the team's exceptional creative artistry, workmanship, and storytelling. Using carefully controlled lighting and well-planned camera shots, the video draws us into the schizophrenic bunny's hallucinations as we experience its chaos, confusion, and the pain of being misunderstood. Design choices such as peeling wallpaper, an insanity-inducing rocking chair, and an unsympathetic grandmother whispering "Hush..." further elevate this solution to a place amongst the stars.</p>					

DaVinci	127-79693	Fine Arts	SL	D.T.T.O. inc	Jimmy C. Draughn High School Team Gold
<p>Struggling with depression and loneliness, a young girl walks away from the edge of a cliff and turns towards hope and the supportive embrace of a friend in this Music Video based on Edgar Allen Poe's "Dream Within a Dream." The team's beautifully restrained musical score, combined with expertly intertwined live action and computer animation, tells a story that evokes the raw and visceral experience of pain and loneliness. The deliberate introduction of color served as a well-crafted visual metaphor to illustrate the main character's choice to re-embrace life. The originality, courage, and risk-taking associated with using such a minimalistic approach to explore an incredibly difficult subject is at the core of what makes this team's Music Video so moving.</p>					

Renaissance	185-56266	Engineering	EL	The Brightness	No.3 East Fuxing Road Primary School
<p>In a fast paced, heart pounding story, this team used hundreds of photos of their life-sized robot costume alongside their dozens of carefully crafted illustrations and intricately designed system of wires and sticks to take us on a journey of how their building could harness the hot and cold energy of a previously uninhabitable planet to make an optimal living condition. The attention to detail on their robot left Appraisers unaware that it wasn't simply a computer animation - but an actual, life-sized costume integrated with green screen technology, which became apparent in the team's Q &amp; A Video. High energy music and dynamic acting drew the Appraisers into the high-intensity problem the characters were working together to solve. The second half of the team's solution used dozens of hand-created animation scenes to depict the process of their robot building the energy piping required for habitation. Each part of the animation used wires and several layers to depict motion, masterfully representing a process that would otherwise be difficult to portray.</p>					

Global Finals 2021 Special Awards

Renaissance	750-78715	Engineering	ML	Dino-cados	Midlothian
<p>This team skillfully and creatively used many different video software programs and editing techniques to present a highly entertaining Video Presentation. The team's use of technology enabled them to insert themselves into the team-created virtual world. This world included Virtuoso and Valiant, two opposing yet complementary characters. The combination of the creativity of their storytelling and the adept use of technology left the Appraisal Team wishing for more.</p>					

Da Vinci	750-07496	Engineering	ML	Pixels	Red Oak ISD
<p>This team went above and beyond with their solution of opposites working together. With their humans vs. animals approach, their main character “of questionable character” turned a new leaf and showed tremendous innovation and empathy to work together with the animals and develop a hotel with modern graffiti and organic architecture. This lumber-baron-turned-squirrel went out on a limb to create an amazing hotel for the visitors. We loved seeing the creativity and environmental awareness of this solution and look forward to seeing how the humans of this team will help animals out in the world moving forward. Great job!</p>					

Renaissance	135-33166	Service Learning	EL	Team YUM (Young Unique Minds)	Rocky River City School District
<p>This team's highly-polished, modern-day Podcast told a story of a different, more old-fashioned, kind of communication—letter writing! The team's humor in their Podcast kept us smiling as we learned about their “Smiles for Seniors” Project, which connected kids and isolated seniors as pen pals. Their story, in which the quirky new boss of a number-one podcast does not even know what a podcast is, was highly entertaining and kept us listening until the end. Their Commercial may have been a break from the Podcast, but it was not a break from the entertainment. The puppy dog faces were so sad that they had the Appraisers ready to adopt puppies. We were so relieved that a dog treat could cheer them up by making them able to play sports! Despite the seclusion of COVID, this team helped to build meaningful relationships and accomplish their goals. In addition, they put together a well-planned and convincing Podcast and Commercial Break that integrated teamwork and the team members' many talents...everything from sports to artwork. We hope they will continue using their talents to bring smiles and connections to kids and seniors!</p>					

Renaissance	147-65689	Service Learning	EL	We're a M.A.S.K.	4 D'imensionals
<p>The COVID-19 virus is terrible, and internet viruses are awful, too. So, can you imagine what would happen if the two conspired against us? This team's professional and polished Podcast made this scenario come to life. It kept us on the edge of our seats to find out what would happen and how this team had used their Project to spread awareness for kids about internet safety in these times when kids are online more than ever. The always-rhyming Podcast moderator was entertaining and informative—even after the Cliffhanger revealed that identity theft had led to a rather dramatic transformation for this character! Music and sounds were well-placed to set the mood for the Podcast audience, and included features such as a rap to share how the team's internet safety awareness work went. Even the team's Commercial seamlessly stayed on theme—highlighting a special mask that conveniently protects against both computer viruses and COVID-19. It fits faces and computer screens and the Commercial convinced us all it was the product of the future...as long as we didn't listen too carefully to all the disclaimers! All parts of this team's Video Presentation came together to form a compelling and impressive package, and we hope the team will continue to find success spreading the message to kids to “assert, avert, and alert” when it comes to internet safety.</p>					

Global Finals 2021 Special Awards

Spirit of DI	750-78661	Service Learning	EL	Di-GIs - Ground Infantry	Lubbock ISD - Waters Elementary
<p>The Spirit of DI was evident in this team from the minute the Appraisers read their Tournament Data Form through the viewing of their Video Presentation. This team embodies the Spirit of DI. When veterans were in need, this team went above and beyond to meet their needs. This team took on the mission of providing support and aid to local veterans. This team worked on not just one, but many goals to help veterans in need! They helped with yard work, they bought groceries, they helped take down lights for a recent amputee, and they built a ramp to increase accessibility. No task was too big or small! Even when they were faced with the obstacle of low funds, the team rallied together to finish their mission. With determination and drive the team raised more funds in order to return a veteran's independence by building him a much needed wheelchair ramp. The team showed spirit in the face of a challenge, becoming outstanding role models for others to follow. Next year, they plan to double the number of veterans they serve.</p>					

Renaissance	105-92187	Service Learning	ML	Suger Hi	RTWKIDS Public Speaking
<p>An innovative and all-encompassing sound design is a skillful manipulation of the senses, utilizing elements such as sound layering, echo, volume, and panning to create the world of your story. The team Sugar Hi is artful at this manipulation. They didn't just tell us a story, but rather used their soundscape to play on our senses and immerse us in the loneliness, isolation, and confusion of their characters – an intentional cacophony of sound that made us feel like we were inside their heads, experiencing the world with them. This was further enhanced by their use of AI facial-motion capture with hand-illustrated avatars to convey the emotional states of their characters. This exceptional design and world building put the Appraisers into the story, and we were grateful that this fantastic team created an app to help us reach out.</p>					

Renaissance	185-37537	Service Learning	ML	Full Score of Endless	RDFX WEST
<p>The purpose of this Project was to improve the creative process of students, and this team led by example. From very simple materials (shells from walnuts and pistachios, straws, cardboard, and fishing line to name a few), the team created a complex and creative world. Beautifully designed costumes and a multi-functional "Dream-Come-True Creator" enhanced the hilarious story of lovable students entangled in the mind control of villain Marus. But thanks to DI Man, the students ate bread to vomit out bad memories of useless technology, then put "future eye drops" in their eyes so their dreams could come true - to "make your imagination a destination." All elements of this incredible storytelling came together to truly show us the joy of imagination. DI Man to the rescue!</p>					

Spirit of DI	148-34547	Service Learning	SL	"Twelve Toes Apart"	Sun Prairie DI
<p>To accomplish the goal of bringing DI to students that may not have otherwise had the opportunity to participate, this team worked with a school principal who had brought DI to her school. They held informational meetings over ZOOM to introduce DI to beginners in the program and connected with other DI participants over social media. They conducted fundraising using social media and other means with the goal of providing funds to help new teams get started. Their overall goal is to grow Destination Imagination in their area. This might have been challenging enough, but they took up their chosen cause while in the midst of a global pandemic that forced people to attend school and go to work virtually. This is the very heart and spirit of Destination Imagination.</p>					

Global Finals 2021 Special Awards

Torchbearer	337-80823	Service Learning	SL	"All Stars"	Acton Academy Lahore Pakistan
<p>This team's Project taught impoverished women and their daughters in Lahore Pakistan how to use e-commerce to sell their garment and jewelry goods as a way to lift themselves economically. The Appraisers were impressed with how the team worked with their community partner, created a web-based platform for the women to sell their goods, and spread the word about their platform through social media. This Project also benefits the girls who can continue their education thereby improving the lives of women for generations to come. Their efforts led the way to a historical and cultural change with a generational impact.</p>					

Renaissance	119-56947	Service Learning	SL	"Andover Animal Advocates"	Challenge Me, Inc.
<p>The team made colorful hand-drawn jointed figures, scenery pieces, and even cutouts resembling a WIFI strength symbol to create a funny Commercial for magical frog hats which delighted the Appraisers. The team's meticulous attention to detail and shooting of over 900 individual photos resulted in an entertaining and visually-impressive piece. They even showed a frog using telekinesis by creating wave cutouts which expanded through several shots. We were very impressed and delighted.</p>					

Renaissance	750-48543	Service Learning	SL	"raDicals"	Fort Bend ISD
<p>This team excelled in creating a fully rhyming script for their Video Presentation! Their Podcast story detailed the love triangle between Lung 1 who loved Bart the Heart, Bart who loved Lung 2, and Lung 2 who had no interest in any relationship. The rhyming scheme also conveyed their Project information and Commercial seamlessly and cohesively throughout their entire Video Presentation. We were impressed with how naturally the dialogue and characters singing flowed and kept our attention. The effort they put into their script was exceptional.</p>					

Global Finals 2021 Special Awards

### Fast Flex Challenge Special Awards

Award	Team Number	Challenge Type	Competition Level	Team Name	Organization/Location
Renaissance	750-64142	Technical	EL- Purple	Trailblazers	Fort Bend ISD, Texas

This team did not have just a single technical element, they had several technical items that were each unique! From a trap door using a servo to open the door, to a pulley system for how the Hero falls through the trap door, to the pizza cutter weapon and how they managed a stable connection, to the clever conveyor belt that moved scenes, this team took risks with innovative solutions that really paid off! Each element was well designed, using a variety of technical skills from programming to electrical circuitry.

DaVinci	185-03751	Technical	EL- Purple	Penglai Supermen	Shanghai No. 2 Penglai Rd Primary School, China
---------	-----------	-----------	------------	------------------	---

In telling the harrowing tale of the white wizard battling against a Dark Lord who has taken over the knight's homeland, this team created no costumes and no digital avatars. Instead, the Penglai Supermen used origami to create the characters that moved through the video using paper platforms, strings, and video effects. Their background scenery was intricate and their Digital Visual Effects were seamlessly integrated as they created a unique visual experience. During the final battle, the Dark Lord transformed from his human form into a dragon in a stunning and creative stop-motion video sequence. This team truly took advantage of the video medium to creatively take their solution to a totally new level.

DaVinci	185-23382	Technical	ML-Purple	Fantastic Potatoes	Shanghai Jianping Experimental Middle School
---------	-----------	-----------	-----------	--------------------	--

This team told the story of the Soul Beast, which truly captured the imaginations of the Appraisers. The Video Presentation was brought to life through the innovative use of green screens, intricate physical props, detailed costumes, and an interactive digital fairy character. Every detail of this teams solution was well thought out and executed. The Appraisal Team was left wanting more!

Renaissance	147-49751	Technical	ML-Purple	D. Inventors	STEMZ Education
-------------	-----------	-----------	-----------	--------------	-----------------

Hollywood, look out! We have seen the future in movie making. This team's amazing green screen technique, excellent interaction with the backdrops, and gods with stature towering over those tiny humans made this Video Presentation a joy to watch. All of these elements combined to create heavenly special effects, resulting in a truly memorable solution. Our Appraisal Team was convinced that these team members were professionals. Thanks for giving us the best seat in the theater!

DaVinci	106-61461	Scientific	EL	Do We Have To?	Brantner Elementary
---------	-----------	------------	----	----------------	---------------------

When arguments cause a hole to be torn in the fabric of reality, creative cooperation and some original songs are needed to bring the characters home. This team went above and beyond the Challenge requirements to deliver a complete story with added elements to make a Fast Flex deserving of extra recognition. The team used abundant special effects, several different Science Simulators, and creative storytelling to really bring the solution to life.

DaVinci	750-95253	Scientific	EL	Gizmo Stars	Independent - Round Rock ISD
---------	-----------	------------	----	-------------	------------------------------

This team's science explanations enhanced by their rhymes, costumes, use of animation, and backdrops delivered a performance that was not only educational but also fun to watch. The attention to detail and unique approach to the solution made for a very memorable solution.

DaVinci	185-10490	Fine Arts	EL	Sparkle Voice	ES of Renmin University of China
---------	-----------	-----------	----	---------------	----------------------------------

Global Finals 2021 Special Awards

Everything about this team's Video Presentation told a completely integrated story of how the power of Magic Music was brought to life. The Magic Musical Instruments produced a variety of sounds using PVC pipes combined with a handmade music box that used an engine to make sound with glass. A third element toggled balls through a straw and into a paper funnel. The Digital Visual Effects brought all of these sounds to life throughout the team's Video Presentation using graphics integrated into the Musical Instruments for a complete musical experience. The sound effects enhanced the Video Presentation even more. A very creative story and performance!

DaVinci	185-84724	Fine Arts	EL	Xincheng Dazzle Colour	Pudong New Area Shanghai Xincheng Primary School
<p>The team told the story about the New City Band, who had just started to form but found themselves struggling as they faced frustration from lack of appreciation and life's pressures. Then their lead singer character is in a car accident, leading the characters characters to realize what is really important. The team's Video Presentation was so engaging, much of it told using the team members' hands--with their instruments drawn on--to portray the characters. The Musical Instrument was an engineering marvel. It produced multiple sounds and was decorated using traditional symbolism. Both the Digital Visual Effects and Sound Effects enhanced the Video Presentation, especially when the band had succeeded and was on the red carpet. The Appraisers would love to see the New City Band perform in person!</p>					

DaVinci	750-13525	Fine Arts	ML	DIdeas	Homeschool
<p>There once was a team from Texas, whose rhymes giggled our solar plexus; three lands they explored, a giant squid takes them to shore, their creativity indeed impressed us. Elaborate backgrounds were a dazzle, use of After Effects expertly facile; they didn't stop there, quicksand beware, talking boulders they fell with a waggle. Five dwarves rhyming with long beards, dapper and comical they appeared; determined to find, three pieces align, their innovative instrument premiered. Their chemistry created CO2 gas, they trapped their air in a glass; released their breeze, their PVC flute played with ease, their technical methods first class. Thy solution appraisers adored, we bestow you with this award; your hard work was clear, for your team FOUR CHEERS, all around your creativity soared.</p>					

Renaissance	750-48021	Fine Arts	ML	Ill-Informed Hot Pockets	Northwest ISD
<p>This team wowed the Appraisers with their beautifully hand-crafted, felt-cutout characters and backgrounds. The team expertly animated both the characters and backgrounds using stunning stop motion. It must have taken an extraordinary amount of time to undertake such a large project. Your hard work paid off, because your virtual talent show was a hit! We proudly award you a Renaissance Award for outstanding design, engineering, execution, and performance!</p>					

Renaissance	148-35154	Fine Arts	SL	Professional Nonsense	Hudson School District
<p>This team's Video Presentation transported the Appraisers to the high seas as we got to know a band of sea shanty singers through the team's mockumentary-style video. The team's musical instrument sounded right at home aboard a pirate ship, and it was the perfect complement to the band's music throughout more than 600 years of history. This must be the most entertaining crew to set sail on the seven seas!</p>					

Global Finals 2021 Special Awards

DaVinci	750-90953	Fine Arts	SL	[nameless]	Independent
---------	-----------	-----------	----	------------	-------------

This team's musical movie trailer with a 1990's grunge aesthetic was cinematically composed in a way that could only have been captured in a Video Presentation. Taking advantage of the virtual tournament format, the team immersed the Appraisers in a dystopian future by using physical as well as original digital settings. The outstanding production design was carried into all components of the team's solution, including costumes, makeup, graphic design, visual effects, and music. And on top of all that, the team-created and programmed therein felt right in place in a future where music has been outlawed. This trailer left the Appraisers ready to go out and watch the full length movie!

DaVinci	185-56266	Engineering	EL	The Brightness	No.3 East Fuxing Road Primary School
---------	-----------	-------------	----	----------------	--------------------------------------

This team used minimal, simple props and simple line animations to circumvent language barriers and tell a compelling story using a silent movie format. The similar style with both the physical and digital props brought a seamless continuity to the performance.

DaVinci	750-78013	Engineering	EL	Ninja Chicks	Independent
---------	-----------	-------------	----	--------------	-------------

The Appraisers were impressed with this team's engineering of their shadow box. The team cleverly used selective transparent panels in the shadow box, which allowed the pertinent parts of each painting to show when the paintings were combined. This team clearly put care and detail into the shadow box.

Renaissance	750-54892	Engineering	ML	DI Dynamites!	Eanes ISD
-------------	-----------	-------------	----	---------------	-----------

Barktopia has never been in better hands since a talented building designer dog aligned forces with a crotchety genius builder who, after much complaining and reluctance, agrees to build to the offered design. The result is a dog hospital with four buildings in pinwheel formation. Each building was designed to be connected via pegs with locking pins. Fashioned completely from recycled materials, the premise of Barktopia is to provide a safe haven for uncared-for dogs and offer treatment against the pending Pawronavirus while providing a re-use for the growing mounds of trash in the community. The team also addressed the increasing threat of dog starvation by creating a plane that incorporated their Geometric Creation, with which the curmudgeon of a builder offered to fly in food. The integrations of engineering design and practice were reflected in the step-wise assembly of the Barktopic vet hospital from parts and pieces to fully functioning establishment in less than 5 minutes. Designers for IKEA may just want to sit up and take notice!

Renaissance	750-78715	Engineering	ML	DINO-cados	Midlothian ISD
-------------	-----------	-------------	----	------------	----------------

The team's Geometric Creation was engineered to assume two very different configurations and purposes as it integrated into the story about bridging a city divided into two very different factions, Valiant and Virtuoso. This provided a transition to a connected city and dissolution of the two factions into one called Vibrant. At the beginning, the fabrication of popsicle sticks, toothpicks, tape, and glue is seen rolled up, looking and acting very much as a Ferris Wheel atop one of the city factions' buildings. As the story proceeded, the team members demonstrated the capability for this construct to be unwound, like unrolling a jelly roll, to form a bridge spanning a gap between buildings representing the two pre-existing factions, providing the connection needed to form Vibrant, the interconnection and blending of Valiant and Virtuoso. The design of the bridge decking and the triangular support frame coupled with the selection of adhesive methods for securing the individual deck pieces to each other and the cadence of frame pieces allowed the entire structure to articulate and be rolled up like a jelly roll to form the Ferris Wheel and then to be rolled out to assume the bridge configuration. The engineering design and the subsequent fabrication and construction were robust and blew the Appraisers away!

Global Finals 2021 Special Awards

DaVinci	119-56947	Service Learning	SL	Andover Animal Advocates	Challenge Me, Inc.
<p>The Andover Animal Advocates created a Video Presentation about the protection of native animals in their area. The Video Presentation included scenes depicting drawings of animals, which appeared to be animated. The movements were created through the clever use of magnets behind the scenery. The Appraisers were amazed!</p>					

DaVinci	750-04375	Service Learning	SL	Imagineers	Imagineers
<p>The Imagineers created a video advocating for the use of a food truck named the Karaoke Food Bus, which would hand out free meals to those in need. In their Video Presentation, the team sang and danced their way through songs from three decades, recreating the lyrics of each song to advertise their Cause. The team-created lyrics and high-energy performance were very exciting.</p>
