

Start a Team Today in Three Easy Steps

STEP ONE

Buy a Team Number in our [online store](#).

Your Team Number is a code unique to your team that you'll use when you register for a tournament. Purchasing your Team Number will give you access to our resources, including the Team Challenges, a set of practice Instant Challenges, and Team Manager training materials.

The cost of a Team Number is \$110 USD. Teams outside the United States may have different pricing based on their local economies. Visit our [Pricing page](#) for more details.

Some DI Affiliates collect a fee when a Team Number is purchased. If applicable, this fee will appear during the checkout process.

When your order is processed, you will receive further instructions via email.

STEP TWO

Find a Team Manager and get their Background Check.

The Team Manager is the mentor or coach who guides the team through their creative process. Team Managers can be parents, educators, or any volunteer who is at least 18 years old. (Want to know who might be a good fit? Hint: maybe it's you!)

Team Managers in the United States must clear a background check before they begin working with their team. You can [purchase a Sterling Background Check](#) through DI for \$40. Schools may purchase these for their Team Managers. *When your order is processed you will receive further instructions via email.*

Do you live outside the United States? [Learn about your options here.](#)

Do you already have a background check? [Learn about your options here.](#)

STEP THREE

Find your local Affiliate.

Your local DI Affiliate will have the latest updates about schedules, tournaments, and other opportunities for your team. Use the [Find Your Location](#) page to get contact information for your Affiliate's leadership and other important details.
